

The Mystery Tube

You will need:

- 2 Toilet rolls
- String
- 2 Small metal rings
- 8 paperclips
- Pencil
- Scissors
- Sticky Tape
- Tin Foil

Instructions:

Using a pencil, make two holes in the tube on one side, and two holes on the opposite side so that they line up.

Cut two pieces of string. Each should be around one-and-a-half times longer than the tube.

Thread the strings through the metal ring as shown.

Insert the ring and the strings into the tube, and pull the strings out of the holes from the inside. Use the picture to help you.

Tie a paper clip to the end of each string to make sure that they can't be pulled back through the holes.

Cover both ends with foil and tape it down so you can't see the insides!
