Careers with PHYSICS
Nuclear engineers design and build nuclear plants and the equipment used in them. They carry out maintenance work and monitor radiation levels from power plants and their surroundings. Nuclear engineers are also responsible for the safe disposal of nuclear waste. They are **collaborative, organised** and **communicative**.

**Physics to know**
Particle model, periodic table, wave properties

**Employer**
Jacobs
www.jacobs.com/careers

**Level**
Undergraduate, Masters degree or PhD

- **Needs physics**
- **Physics is useful**
- **Transferable skills from physics**

Careers with PHYSICS
Visual effects artist

Visual effects artists create computer generated characters, scenes and effects. They can specialise in areas such as film, television, commercials, games and immersive experiences. They often work as part of a team and may use both software and scripting or coding to create characters and scenes. Visual effects artists are creative, imaginative and collaborative.

Physics to know
Sound, light, speed

Employer
Framestore

Careers with PHYSICS

South East Physics Network
Architect

Architects design buildings, spaces and places in all of the built environment. They work with a full team of professionals including structural engineers, civil engineers, quantity surveyors, interior designers, landscape architects and historic building specialists. Architects are creative, imaginative and collaborative.

Physics to know
Gravity, energy transfer, light

Employer
Brady Mallalieu Architects
https://bradymallalieu.com

Level
Undergraduate and postgraduate degree

☑ Needs physics ☐ Physics is useful ☑ Transferable skills from physics

Careers with PHYSICS

South East Physics Network
Food technologists ensure that the food and drinks we consume are of consistent quality and safely produced. Food technologists are often involved in developing recipes, testing sample products and producing nutritional labels for food and drink products. They are communicative, observant and curious.

Physics to know
Wave properties, types of reactions, digestion

Employer
RSSL
www.rssl.com

Level
Undergraduate degree

☒ Needs physics ☐ Physics is useful ☑ Transferable skills from physics

For more on careers with physics visit: www.sepnet.ac.uk

Careers with PHYSICS
Energy analyst

Energy analysts support different parts of the energy team. They use energy data to accurately model what is happening in real life to enable the business to make decisions. They aren’t just interested in how many kWh have been used, they also want to make sure that the energy has been used efficiently. They are observant, communicative and logical.

Physics to know
Energy costs, energy transfer, forces

Employer
Thames Water

Careers with PHYSICS

South East Physics Network
Astronomer

Astronomers study how the Universe works, from the origin of planets, stars and galaxies, to the understanding of cosmology. Astronomy is an interdisciplinary science that comprises physics, chemistry, computer science and mathematics. Theorists create computational and analytical models to develop new theories while observers design and carry out observing programmes to test theoretical predictions. Astronomers are passionate, observant and curious.

Radiographers use equipment to diagnose or treat patients who are ill or injured. Diagnostic radiographers will produce and interpret high quality images of the body, using both non-ionising and non-ionising radiations. Therapeutic radiographers plan and give treatment to patients using ionising radiations. Radiographers are observant, communicative and organised.
